

# Epizone E

<b>Product Name</b>	Epizone E
<b>Product Category</b>	Bath Emollients
<b>Description</b>	<p>This is an emulsifying ointment ideal for the treatment of very dry skin conditions, such as Eczema or Psoriasis. Epizone E contains no perfumes or colourants that can harm the skin. It is an ideal soap substitute when lathered with warm water and is safe to use on babies and other sensitive skins.</p> <p>Epizone E can also be used as a barrier ointment, especially effective on chapped hands, elbows and cracked heels. Epizone E can also be used as a base product for topical mixtures, like cortisone ointments. Emollients soothe, smooth and hydrate the skin and are indicated for all dry or scaling skin condition. Their effects are short lived and they should be applied frequently even when improvement occurs.</p> <p>Skin diseases are common in South Africa and other parts of the world. For patients with Atopic Dermatitis, emollients and moisturizers are the mainstay of treatments and therefore Epizone A and Epizone E are essential to these patients.</p>
<b>Directions for Use</b>	Apply directly on skin, lather with lukewarm water, rinse and pat dry with clean towel.
